

FACTORFIVE

+ HUMAN STEM CELL FACTORS

REGENERATIVE SERUM

Clinically shown to improve the appearance of wrinkles, redness, pores, elasticity, brown spots, UV spots, and skin tone

A best-selling serum that deviates from traditional anti-aging skincare to target the signs of aging: wrinkles, sunspots, tightness, thickness, texture, and more. Our potent regenerative serum combines human stem cell derived growth factors with copper peptides to help restore your skin.

The FACTORFIVE glow—our serum is known for giving you a more hydrated and youthful appearance.

Formulated with humanity in mind—without parabens, mineral oil, sulfate detergents, phthalates, urea, DEA or TEA—and not tested on animals.

ADSCs: FACTORFIVE technology naturally contains the widest array of Adipose Derived Stem Cell (ADSC) growth factors. These GFs assist in calming inflammation, smoothing, tightening, and promoting youthful skin.

VITAMIN C: Sodium ascorbyl phosphate, a unique and stable form of vitamin c, assists in skin brightening and reduction of sun spots.

SOOTHING INGREDIENTS like aloe vera and green tea extract help heal the skin and provide a cooling effect.

HYALURONIC ACID: Low molecular weight HA hydrates, smooths, and softens skin while also helping calm redness and inflammation.

PEPTIDES: Have a botox-like effect and help minimize the appearance of fine lines and wrinkles.

Quantifiable Results

- 29% wrinkle reduction
- 61% redness reduction
- 44% UV spot reduction
- 73% texture improvement
- 53% pore reduction
- 40% fewer porphyrins (clearer skin)
- Visible results in 4 weeks

Feature and Benefits

- Suitable for all skin types
- Absorbs quickly and leaves no sticky or oily residue behind
- All natural and no harsh chemicals
- Formulated without parabens, mineral oil, sulfate detergents, phthalates, DEA, or TEA
- Made in the U.S.
- Not tested on animals
- Ethically derived stem cell factors

How to apply: After cleansing, apply one pump of serum gently over your face, neck, and décolleté morning and night. For best results, use twice daily.

Product Numbers

- Bottle size: 1 oz / 30 mL
- Pumps per bottle (average): 130 – 150
- How long product lasts: 1.5 to 2 months

Stem Cell Growth Factors

Stem cell growth factors are proteins that stimulate the growth and repair of cells. They can help to improve the appearance of fine lines, wrinkles, and uneven skin tone, giving you a more youthful, radiant complexion. Some of the potential benefits of using growth factors in skincare products include:

- **Fine lines & wrinkles:** Growth factors naturally stimulate your own stem cells to increase the production of collagen and elastin, which can help to smooth out the skin and reduce the appearance of fine lines and wrinkles.
- **Uneven skin tone & texture:** Growth factors naturally stimulate the production of new skin cells, which can help to even out your skin tone and improve the overall appearance of your skin.
- **Boosting skin hydration:** Growth factors can help to increase the production of hyaluronic acid, a natural moisturizing factor that helps to keep your skin hydrated.
- **Protecting your skin from environmental stressors:** Some growth factors contain antioxidants, which can help to protect your skin from damage caused by free radicals, such as pollution and UV radiation.

Reviews

- Life changing - This is now a must have staple for my skin care routine!! Can't believe I ever lived without before. I've noticed a huge difference in my sunspots and skin elasticity. Even my coworkers have commented on my skin since I started this product. – Caitlin
- Liquid gold - This serum is absolutely amazing! It absorbs quickly, smells amazing, and my skin has never looked better. - Kelsey H.
- I'm 71 and my daughter is 43 and we both swear by it! – Christine B.
- This product feels like gold on your face. My face glows brighter, my pores are looking smaller, I love this stuff! – Jess
- Awesome skincare product - This stuff is amazing! My dermatologist told me about it and her skin looks fantastic. My skin is glowing and will definitely re-purchase. – Laura V.
- Dramatically helped clear up my rosacea/red areas on my skin and leaves it soft and smooth. I've been using it for about 6 months now and the results were pretty fast! I can actually leave the house without makeup. – Abigail L.
- Wow! Very impressed! As an esthetician, I'm very picky on products. I'm actually impressed with this FactorFive Serum. In almost two weeks of using this, I definitely can see a change in my texture and redness. I'm really excited to continue using this to see better and more results.

INGREDIENTS

Human Stem Cell Conditioned Media, Water (Aqua), Aloe Barbadensis Leaf Juice, Glycerin, Niacinamide, Sodium Ascorbyl Phosphate, PEG-8/SMDI Copolymer, Bis (Tripeptide-1) Copper Acetate, Acetyl Octapeptide-3, Acmella Oleracea Extract, Lecithin, Camellia Sinensis Leaf Extract, Xanthan Gum, Palmitoyl Tripeptide-37, Citric Acid, Sodium Hyaluronate, Disodium EDTA, Hydroxyethylcellulose, Polysorbate 20, Fragrance, Phenoxethanol, Ethylhexylglycerin.

- **Human stem cell growth factors:** These ethically derived adipose human stem cell growth factors work like a lock and key with the receptors on your own skin cells, promoting an increase in collagen, hyaluronic acid, elastin, and other beneficial skin proteins.
- **Copper Peptides** boost your natural stem cells by bringing them to the surface. They've been shown to increase your skin's elasticity and help promote smoother skin.
- **Hyaluronic acid:** Retains moisture and locks in other beneficial ingredients.
- **Aloe Vera:** Known for its soother properties, aloe calms even the most sensitive skin.
- **Vitamin C:** Brightens the appearance of skin and aids in the rebuilding of collagen.
- **Niacinamide:** Allows ingredients to absorb.
